Summary

Final-year Electronics and Communication Engineering undergraduate at IIIT Noida with a strong problem-solving foundation and hands-on experience taking web applications from zero to production. Comfortable breaking down ambiguous requirements into shippable systems, owning them end-to-end, and iterating fast in unfamiliar stacks. Built and deployed a live production website independently for an external client, and ships side projects driven purely by curiosity about how things work under the hood. Looking for a Software Development Engineer Intern role to build systems that hold up at real scale.

Technical Skills

- **Languages:** C++, Python, JavaScript, SQL
- **Core CS:** Data Structures & Algorithms, OOP, Exception Handling
- **Frontend & Web:** React.js, Vite, HTML, CSS, REST APIs, Responsive Design
- **Databases & Tools:** MySQL, Git/GitHub, VS Code, Excel
- **Also Familiar With:** MATLAB, Cadence Virtuoso, HFSS, Proteus (RF/hardware coursework)

Projects

Prof. Shweta Srivastava — Academic Portfolio Website

React.js, Vite

- Owned an academic portfolio website end-to-end for a real external client, from requirement-gathering to deployment, covering bio, research, publications, and contact modules.
- Architected reusable, componentized React structure with Vite for fast builds; independently debugged and shipped to production on Vercel at prof-shweta-srivastava.vercel.app.

Girvi Len Den — Loan & Interest Tracking System

HTML, CSS, JavaScript, localStorage

- Designed and built a record-keeping system handling per-entry interest rates, category logic, and running balance calculations across large entry volumes.
- Engineered offline-first persistence via localStorage and one-click Excel export, prioritizing reliability for non-technical end users.

Interest Calculator

JavaScript, DOM, Excel Export

- Built a rule-based calculation engine supporting global and per-entry rates across custom date ranges, with careful handling of date and rate edge cases.
- Implemented dynamic DOM-driven UI and export pipeline from scratch without external frameworks.

Education

Jaypee Institute of Information Technology (IIIT), Noida

July 2023 – Present

B.Tech, Electronics and Communication Engineering

P.M.S. Public School, Moradabad

Mar 2022 – Mar 2023

Class 12 (CBSE)

Courses & Certifications

- **AI Agents Intensive** (Google/Kaggle) — Prompt engineering, agent workflows, GenAI prototyping
- **Java** (IIT Bhubaneswar) — OOP, control structures, exception handling, data structures
